SINCE 1919

PITCH PINE *Pinus rigida*. A tree to 75 feet with short stout branches.

Dark green needles 4 to 5 inches long. Very hardy and succeeds in poor, dry, rocky soil. Ideal for quick windbreaks and cover for barren hillsides. Rugged and picturesque when old.

3-6 in. seedlings \$1.60 per 100; \$10.00 per 1000

6-12 in. seedlings \$2.00 per 100; \$15.00 per 1000

BANKS PINE. *Pinus banksiana*. Short yellowish green needles on tough branches that hold well to the ground. Very fast grower. Ideal for windbreaks and cover for poor land. In average soil will grow to 40 feet or more. Sheared when small will make good Christmas trees in shortest possible time. A good filler tree.

10-15 inch seedlings \$4.00 per 100; \$20.00 per 1000.

PONDEROSA PINE. Long dark green needles 5 to 8 inches long. Heavy drooping branches. Grows to 100 feet or more. Prefers a well drained soil from clay to sandy. Highly ornamental when young and much used for Christmas trees as well as screens and windbreaks. After first years average growth is about 15 inches each year.

4-6 inch seedlings \$4.00 per 100; \$20.00 per 1000

COLORADO SPRUCE. *Picea pungens*. The best and hardiest spruce for all purposes. Our selected seed stock produces a high percentage of blue color trees. Seedling beds show a fine color.
